

## Quotes of Swami Vivekananda on Thoughts

- “Mystery mongering and superstition are always signs of weakness. These are always signs of degradation and of death. Therefore beware of them; be strong, and stand on your own feet. Great things are there, most marvellous things. We may call them supernatural things so far as our ideas of nature go, but not one of these things is a mystery”
- “There is a great tendency in modern times to talk too much of work and decri thought. Doing is very good, but that comes from thinking. Little manifestations of energy through the muscles are called work. But where there is no thought, there will be no work.”
- “Bless people when they revile you. Think how much good they are doing by helping to stamp out the false ego. Hold fast to the real Self. Think only pure thoughts, and you will accomplish more than a regiment of mere preachers. Out of purity and silence comes the word of power.”
